

An Introduction to the Telepan Restaurant Wine List

Welcome to our wine list, an offering of wines that we believe are worth the extra effort to seek out and purchase. While the wines are primarily sourced from American, French and Italian producers, we have included selections from other favorite regions around the globe.

Most of the wineries represent boutique productions made by true artisans whose intention is to make balanced, food worthy wines. These are wines that speak of their origins, and all of them represent great value relative to their price.

Our cellar also represents a partnership of passions. The private collection that lends the backbone and depth to our list is also influenced by the interests and personalities of our staff. We cannot help but be swayed by the dedication and talent of the many winemakers that we meet!

There is a seasonal element to our wine list to better complement our food, and we promote the concept of drinking and eating in season.

We are happy to provide advice and direction when tackling new regions or adventurous styles, and we enjoy developing food and wine pairings for your menu. Feel encouraged to discover your own preferences, and in participating in a wine program that will grow through the years to come.

Sommelier Wine Feature

~ Seasonal Wines: Summer

The sun of summer brings to mind the freedom and freshness of dining outdoors. Our farmers are harvesting produce at its' peak ripeness and the wines exhibit lots of delicate white floral character, and an herbaceous zestiness. Rosé wines carry that floral freshness in pairing with heartier foods. These red wines show bright fruit with touches of spice, perfect for the produce of the hotter months.

Large Format

~ The 'Once in a Lifetime' experience - bottlings that make an impression

For those *special occasions*, there are few ways to create more drama than the arrival of a big bottle. The simple image and presence of a Magnum heralds a *spirit of gravity and joy* all at once. But *size* isn't the only important factor. Wines are known to age more gracefully in larger formats, retaining more freshness while developing the added complexities that age can provide. Winemakers also make fewer large format bottles than demand usually supports, creating an even more dramatic *exclusivity* to that moment. That moment when the wine flows prodigiously, and dinner becomes an *event*.
